

# FEBRUARY 2007 NEWSLETTER

**Give your child a brighter future**

**Welcome** back after the half-term break.

When entering the centre, you will notice this poster at the top of the stairs. One of the first questions students ask about Kip McGrath is: "Will it be like school?" Like all good schools, we employ enthusiastic, fully qualified and experienced teachers. Our teachers will only be working with small groups of up to 4 students.

Children benefit from the presence of other students in a friendly atmosphere, not feeling intimidated or restricted by large classes at school. Our centre is far removed from a normal classroom, so children can feel **positive** about getting something very different, than 'more school'.

We currently have over 50 students, so henceforth there will be two categories of **Primary Merit Awards**. **January's** winners have both shown positive attitude, worked consistently hard, completed all homework; and made progress in study.

Infant **Star Hesaan**

Junior **Star Fatima**

**Success** normally comes from a succession of small improvements. Please keep us informed of students' achievements, in school or outside.

Congratulations **Cameron**, for being in the Golden Book, for concentrating well at school. Well done **Amy (F)** for achieving a 400m swimming and gymnastics awards; **Megan** for a Grade Two water skills award; and **Saif** for being a Shining Star at school.

**Remember** to notify us of any changes of address, telephone or school. There have been a few instances lately when we have needed to contact parents and telephone details have been out of date.

**Easter Holiday:** This year the centre will **remain open** until after lessons on **Thursday 5th April** and re-open on **Friday 13th April**. Please advise us in good time of any student who will be away on holiday when the centre is open.
