

Give your child a brighter future

Welcome. The fourth question on our website, which students ask most about Kip McGrath, is: "What will I be doing?"

A session for English or maths lasts 80 minutes and involves 5 - 6 activities. These alternate between computer, workbook and teacher. Within a small group of up to 4, each child will have their individual programme of study and progress at their own pace.

This poster is in the main room. We emphasise the positive aspects of every child, to eliminate failure. A student's **confidence** and **self-belief** dramatically increases, when concepts struggled with at school suddenly click; overcoming limiting beliefs, such as 'I can't spell' or 'I can't do maths'.

April's **Merit Awards** go to one infant and one junior student; judged on a positive attitude, progress made in study and attendance.

Infant **Star Benjamin**

Junior **Star Sally**

Website. 2 new sections - Testimonials and Jobs have been added. Thank you to those parents and students who have contributed.

Success normally comes from small improvements. Please tell us of students' achievements, in school or outside, so that we may share their success.

Well done to the following students who have both made good progress at school: **Cameron**, for being in the Golden Book and **Zara** for a Merit Certificate. Congratulations **Ellen** for completing a Dance Theme course and **Ga Hou** for completing a football course run by Bolton Wanderers.

Remember the centre will **remain open** for half-term week beginning **28th May**. Please advise us in good time of any student who will be away on holiday, so that we may offer his/her time to someone wanting a make-up session for that week.

Finally, good luck wishes and positive thoughts for those students doing SATs in May. Believe in yourself to do well.
