

NOVEMBER 2007 NEWSLETTER

Give your child a brighter future

Welcome. One of the questions on our website, which parents ask most about Kip McGrath is "How much do lessons cost?". Since January 2006 a lesson fee has been £22 each week. This includes all writing materials, worksheets, textbooks and use of exclusive computer programs; as well as specialist, professional tuition by fully qualified teachers. From **January 2008**, lessons will be **£24** (£18 per hour). A separate sheet will be given to all parents, detailing the new fees, an enhanced discount if a full term (13 weeks) is paid in advance, together with discounts for monthly payment and siblings attending together.

October's Merit Awards; judged on attendance, a positive attitude and progress made in study:

Junior **Star Joseph**

Secondary **Star Emily**

Success normally comes from small improvements. Please tell us of students' achievements, in school or outside, so that we may share their success. Well done to the following students who have made good progress at school: **James (D)** - moved up a set in English and **Matthew** - "Best in Class" for his piece of written work.

A special mention to **Ben** and **Lucy**. With a Halloween party at 5.30 pm, they still managed to come to their 4pm Kip sessions.

Times Tables challenge. This is proving popular with both young and older children. Remember it is open to all students, not just those doing maths. Congratulations to **Alex (S)** and **Harry** for winning a **£5 cinema token**. Well done **Katie** for achieving a score of **50** on level 1 and **Soham** for achieving a score of **40** on level 2.

This month we are entering two students into the **Kip McGrath Worldwide Timed Tables Challenge**. **Ga Hou** currently leads our level 1 chart with a fantastic **69** and **Fatima** leads level 2 with an equally impressive **58**. We wish them well and the results will be shown in our December newsletter.
